## SKILLS

### Design & Prototyping

- Figma (Wireframes, High-Fidelity UI, Prototypes)
- Reusable UI Components (Figma)
- Consistent UI Patterns
- Style Guides & Visual Consistency
- Atomic UI Thinking (Buttons, Inputs, Cards)

### UI Development

- HTML, CSS (Responsive Layouts, Flexbox)

### UX Fundamentals

- Visual Hierarchy & Layout
- Usability & Accessibility Basics
- Data-Dense Interface Design

### Programming

- Python (Intermediate)
- C (Intermediate)

## LANGUAGES

- English (Fluent)
- Tamil (Fluent)
- Hindi (Read and write only)

# INDHUPRIYAH P P

UI/UX Developer | ENGINEERING STUDENT

## PROFILE

UI/UX Designer with an engineering background, focused on building clear, functional, and analytics-driven user interfaces. Experienced in designing mobile app flows and responsive web interfaces using Figma, with strong attention to usability, visual hierarchy, and consistency. Skilled in translating product requirements into wireframes, high-fidelity designs, and interactive prototypes, while accounting for front-end and system constraints. Seeking a UI/UX Developer internship at ConverSight.ai to contribute to intuitive data and AI-powered analytics products through close collaboration with engineering teams.

## EDUCATION

**SARASWATHI MATRIC HIGHER SECONDARY SCHOOL** 2021 - 2023  
HSC-Bio Maths  
Grade:89.7%

**BANNARI AMMAN INSTITUTE OF TECHNOLOGY** 2023 - 2027  
BE-Information Science And  
Engineering CGPA:8.09

## PROJECT

### Mobile App Signup Flow Design

- Designed and developed a user-friendly, aesthetically pleasing mobile app signup flow in Figma.
- Focused on ensuring brand consistency and user-centric experience, applying design principles to enhance the user journey.

### Cake Website Design

- Created a responsive and visually appealing cake website design, ensuring a seamless and engaging user interface.
- Focused on optimizing layout and aesthetics, without implementing search functionality.
